# Winter Safety tips

# Keep Your Home Safe

## **Space Heater Safety**

**Home fires occur more in the winter months than any other time of year!!**

- Maintain heating equipment and chimneys by having them cleaned/inspected annually
- Place space heater on a level, hard surface
- Keep anything flammable at least 3 feet away from heating source
- Turn space heater OFF when leaving the room or going to bed
- Never plug a space heater in a power strip
- Install carbon monoxide detectors to avoid carbon monoxide poisoning

**From 2007-2011, space heaters accounted for 4 out of 5 home heating fire deaths!**

# New Faces Around the Firehouse

Jamal Prince, joined the FBFD on April 4th 2018. Born and raised in Daytona Beach FL, he had a passion for the fire service as a child with the inspiration from his parents. With his mother a CNA and his father a Corrections Officer Jamal learned responsibility and disciplined at a young age which would give him a foundation for this career. Growing up, Jamal always surrounded himself around family; and if he was not around family it was his basketball and football team. He was fortunate to understand the roles and responsibilities for this career while doing a station tour with his friend's father. He enrolled into Daytona State College in 2017 and finished his Fire Standards and EMT.
