

# Keeping Flagler Beach Safe & Walkable!

The City of Flagler Beach is partnering with **Precision Sidewalk Safety Corp** to repair and improve sections of our community sidewalks!

This project will begin the week of **December 15th** and will focus on removing uneven surfaces and trip hazards between **SR 100 and 9th Street South**, starting at **SR 100 & South Flagler Avenue**. Work will continue as long as funding allows, prioritizing the areas with the greatest safety needs. While not every sidewalk or accessibility issue can be addressed in this phase, these improvements will make a meaningful difference for residents and visitors alike.

- ✓ Safer sidewalks for residents and visitors
- ✓ Improved accessibility for strollers, wheelchairs, and walkers
- ✓ Cleaner, smoother streetscape for our beautiful beachside city

## What to Expect During Construction

- **Work Hours:** Crews will operate during daytime hours to minimize disruption.
- **Temporary Closures:** Some sidewalk sections may be briefly closed while repairs are underway.
- **Noise & Equipment:** Expect normal construction sounds and equipment in the work zones.

We appreciate your patience as these improvements take place — and we can't wait to see the positive impact on our daily walks around town!
