NOTICE:

Elimination of Penny

On May 22, 2025, the U.S. Department of the Treasury announced that production of the penny will cease in early 2026. While the U.S. Mint will no longer produce new pennies, existing pennies will remain legal tender and continue to circulate.

As a result of this change, the City of Flagler Beach has been notified by its banking partners that the ability to order pennies may be limited or unavailable in the future. The City currently accepts cash payments at its offices and maintains a limited supply of pennies for making change; however, this supply may eventually be depleted.

Effective January 1, 2026, the City of Flagler Beach cannot guarantee the ability to provide exact change for cash transactions. If pennies are not available to issue as change, any overpayment of less than \$0.05 will be credited to the customer's account and reflected as a partial payment on the subsequent billing statement.

We appreciate your understanding and apologize for any inconvenience this may cause. If you have questions or would like to discuss alternative payment options, please feel free to contact our office, we are happy to help.
